Cover yourself for most common pests

Annual Pest Control Agreements

Instead of waiting until you've already got a problem before you call us out, why not take out an annual agreement with us for a set fee.

These consist of a number of programmed visits covering rats, mice and common insects, plus and interim call-outs required by the clients. There are no hidden extras and agreements start from as little as £75 per year.

We tailor each pest control agreement to the individual needs of our clients. This personalised interaction between client and contactor offers peace of mind that any potential problems are dealt with in an effective and efficient manner.

Our annual agreements include:

- Detailed inspection of premises and identification of pests
- Inspection of rodent tamper resistant bait stations and insect monitoring stations
- All necessary treatments for rodent and common insects
- Written report sheets, highlighting the pest control work that has been undertaken and any recommendations for improvement.

Advice on pest proofing

Servicing of electrical fly killers where appropriate.

Maintaining Standards

We ensure that service standards are kept and that our commitment made to you when issuing an agreement is maintained. We provide a comprehensive response to problems should they occur, dealt with by skilled officers who can assess the situation and organise an appropriate treatment, employing the latest pest control methods and equipment.

Health, Safety & record keeping

Guaranteed standards of health & safety, to ensure compliance with current legislation. Our operatives are trained in aspects of health and safety relative to the tasks undertaken and can provide:

- Appropriate Risk Assessment
- Safe Working Procedures
- Hazard Data Sheets for Chemicals

We also recognise the importance for recording information and because of this can offer a system that provides evidence of visits made, actions taken and recommendations for improvements.
